Mark Balnaves has more than 20 years of director, strategic advisory and infrastructure experience. Mark is experienced in a wide range of projects having advised on major property projects around Australia for Government, Universities and private investors.

Director Experience

Mark has significant director experience, including as independent chairman of Celsus (the developer of the new Royal Adelaide Hospital) and 12 years as chairman of the National Wine Centre of Australia.

Mark also acts as independent advisory board chairman of a number of private businesses.

Mark acted as Chairman of the PCG for the State Government to successfully manage a diverse group of stakeholders to deliver the Wine Innovation Cluster building at Waite Campus.

In December 2019 Mark was appointed as a director of Infrastructure Australia.

Strategic Advisory Experience

Mark has provided strategic advice to a wide range of private, listed and institutional clients across Australia including:

- Owners or purchasers of iconic tourism assets across Australia;
- Wine business Teusner & Page on their sale to Javier Moll;
- University of Melbourne, University of Adelaide and Flinders University in relation to research facilities and student accommodation;
- ACH group on major projects including Repat hospital and a development adjacent Lyell McEwin;
- Financial services business Cavendish Superannuation on their sale to AMP;
- IT business Bendzulla on their sale to Challenger; and
- Various professional service firms on both the buy and sell side.

Property Experience

Mark has significant property advisory experience for owners of private and institutional property portfolios.

Projects include commercial/retail premises, health precincts, research facilities and student accommodation.
